BAVO suicide prevention courses

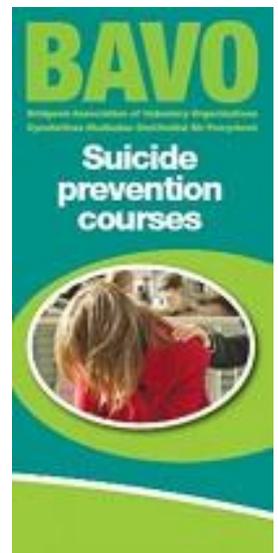

BAVO empowering people to intervene. BAVO has been helping communities across Wales become suicide-safer since 2008. [Our suicide prevention courses](#) are part of a suicide prevention strategy across the Globe.

BAVO's strong history of excellence has continued to contribute towards better preparing our communities to intervene and prevent suicide.

Our philosophy is to ensure that one day we will have a suicide safe community where people at risk are supported; people providing support feel confident and able and the stigma and stereotypes associated with suicide and suicide ideation are eradicated.

BAVO wants to hear your views about children and young people's mental health and wellbeing services in Bridgend County Borough

Between the 11 June and 17 August 2018, BAVO will be undertaking a consultation into children and young people's mental health and wellbeing services in Bridgend County Borough.

We hope as many people as possible will share their experience with us and contribute to shaping future services for 0 to 18 years and would very much appreciate your contribution.

The survey is being coordinated by our BAVO Mental Health Development Officer and will be undertaken in conjunction with similar studies in Swansea and Neath Port Talbot. The results of the survey will be important in informing how Bridgend's third sector plans and delivers mental health and wellbeing services for children and young people, but will also prove valuable to Bridgend County Borough Council, ABMU Health Board and Primary Care Clusters. There are two surveys available – one which is aimed at children, young people, parents and carers and one for staff and organisations providing services in our area.
