

# Stay home to save lives

Coronavirus levels are rising  
quickly everywhere in Wales

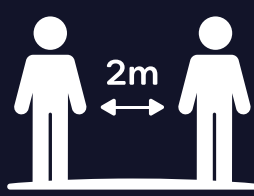

**Until 9 November:**

Only go out for food, education, care, health  
or work, if you can't work from home

You must not meet people you do not  
live with, either indoors or outdoors

When you go out, keep your distance,  
wash your hands regularly and  
wear a face mask where required

If we do this now, and together,  
**we will save lives**

Check the rules online
